

HEALTHY AGING FROM A MULTIDISCIPLINARY PERSPECTIVE

Life Sciences Center, VILNIUS,
June 27-29, 2022

Information on the Arqus Research Focus Forum

Vilnius University will organize **Arqus Research Focus Forum** on the topic “**Healthy aging from a multidisciplinary perspective**”. This Research Focus Forum aims to develop cooperation between the Arqus European University Alliance members with a particular emphasis on transdisciplinary approaches, joint application for project funding, development of student exchange (lecture semesters, research internships, PhD co-directions, etc.). We invite all researchers from Arqus Universities to participate, regardless of their career stage or discipline. The 3-days conference will take place in Vilnius (Life Sciences Centre, Sauletekio ave. 7), June 27-29, 2022.

Call for abstracts & participations

Academics and researchers from all Arqus Universities are invited to register and submit a 300-words abstract. The number of participants is limited, and priority will be given to those submitting the abstract. The abstract should present the research interests, project ideas and/or areas for possible collaboration, as well as the format in which participation is envisaged such as presentation of an ongoing research project, ongoing collaboration, scientific communication, etc. Please specify if you would like to deliver an oral presentation or to present a poster. Deadline for registration is April 22, 2022. For registration/ abstract submission please follow the [link](#).

Requests for more information should be sent to inga.griskova-bulanova@gf.vu.lt with a subject of the letter indicated as “Arqus RFF Vilnius”.

Funding

Funding is available for travel and accommodation costs for participants from Arqus Universities within the framework of the Arqus European University Alliance. Please contact the Arqus Officer at your University for details.
